

Disclosure Notice:

Correction of Published Financial Statements for the year 2024

First National Bank of eSwatini Limited (“FNB”) hereby advises stakeholders that the annual financial statements (“AFS”) for the year ended 30 June 2024, which were published on the FNB website on 11 November 2024 and subsequently removed on 10 September 2025, contained an incorrect version of the audit report.

The audit report included in that publication was not the final signed version issued by our external auditors, PwC. This has now been corrected. The final audited financial statements, together with the duly signed audit report dated 10 October 2024, have been published on our website. While the audit opinion remains unqualified, and no amendments have been made to the underlying financial statements, stakeholders are advised that the version of the AFS that were published on the website on 11 November 2024 should not be relied upon. All other financial statements and packs previously circulated through official channels remain valid and may be relied upon.

FNB regrets any inconvenience caused and confirms that the final audited financial statements are now available on our website for stakeholders’ reliance.
